## MARITIME CLAIMS SUPPORT & LEGAL SERVICES

CompuWeather provides complete support for all of your global maritime cases and marine claims. Working in conjunction with their sister division, FleetWeather Ocean Services, CompuWeather provides a full range of services for maritime attorneys, surveyors, marine insurance professionals, engineers, ship owners, charterers, agents, technical managers, and P&I clubs. CompuWeather’s marine claims team is comprised of land and marine meteorologists, claims analysts, professional ship routers and expert witnesses. CompuWeather can provide you with site-specific weather and sea analysis, claims assistance and litigation support for any location in the world.

- Cargo Loss & Damage
- Admiralty Cases
- Vessel Speed & Performance Claims
- Arrival Delays
- Inland Waterway Cases and Claims
- Ship Damage, Accidents and Sinkings
- Yacht & Personal Watercraft Incidents
- Fuel Consumption Disputes
- Personal Injury Cases
- Off-Shore Platforms & Port Accidents
- Jones Act Claims and Cases
- Tropical Storms and Hurricanes
- In-Port or Demurrage Claims
- Route Analysis
- Rig and Pipeline Damage
- Voyage Reconstructions

CompuWeather’s site-specific weather and sea reports are customized and tailored to your specific needs and case requirements. In addition to the many more common weather conditions typically included, we are also able to provide you with the following marine conditions: swells, sea state, ocean currents, ocean waves, gale/storm warnings, tides, icing, icebergs, local wind phenomenon, tropical activity, etc.

CompuWeather offers a variety of reports in different formats designed to support a wide range of claims and cases. A full range of legal services are available from CompuWeather including phone consultations, document review services, testimony and expert witness service and custom graphics. CompuWeather’s claims team is also available on a time and materials basis for extended case work, consulting projects and special needs cases. In addition to our in-house resources, CompuWeather can assemble and manage world-class teams of experts to work on your case which can include: marine engineers, civil engineers, naval architects, senior scientists, environmental specialists, computational fluid dynamicists, technical experts, and more.
